#### **Task 1** English –

#### **Finish the story**

He had only been away for a short time.

Upon returning to his home-town, Jake found that it was no longer there: something terrible had happened. After eventually locating his house (it had moved several hundred miles from its previous location) Jake stood on top of it and surveyed the calamitous scene around him. What could have caused such a thing to happen?

Can you continue the story? You could write a flashback, describing what happened to the town, or write about how Jake tries to solve the mystery.
