Months and Seasons

The spring months are March, April and May.

With a partner, look at the seasons wheel.

- Name the winter months.
- If the month is October, what season is it?
- If the month is March, how many months are there until summer begins?

Seasons Wheel

Make your own Season Wheel by following these instructions:

1. For each season, draw a picture of the weather.
2. If you can, think of an event that happens in each season. It could be a celebration, a holiday or an important occasion, like a birthday. Add it to your wheel.
3. Add small arrows to your wheel to show which way the seasons go.
4. Carefully cut out your wheel.

Day 5 - Friday

Spring Weather

Spring weather can be mixed.
What kinds of weather can we experience in spring?

Lighter Evenings

You might notice that the daylight gets longer and longer during the spring months. It may still be light when you go to bed!
